custody, and loaded physical items for shipment. On 2/28/2025, at approximately 7:45 a.m., NY C-20 delivered these items to DOJ with chains of custody ready for turn-over. The shipment included 84 digital items, 70 general items, 2 valuables, 2 ELSUR items, 3 red wells, and one disc containing all three Sentinel case files (50D-NY-3027571, 72-MM-113327, 31E-MM-108062).

2/28/2025: Provided to DOJ - evidence and documents from 50D-NY-3027571, 72-MM-113327, and 31E-MM-108062; Disc containing Sentinel case files (50D-NY-3027571, 72-MM-113327, and 31E-MM-108062); Epstein and Maxwell case background including government exhibit list.

MARCH 2025

3/3/2025: Evidence and documents from 90A-NY-3151227; Discs containing Sentinel case files (90A-NY-3151227, 9A-NY-3144791, 90C-NY-3154599, and 282B-NY-3156749) delivered to DOJ.

3/4/2025:

- NY responded to request for any documents at a higher classification (50D serials 538, 539, 684)
- FBI suggestions for ODAG review of case files, including an exported list of all Epstein evidence/1A/1Cs

3/7/2025: Epstein evidence summary (50D, 72, 31E, 90A, 90C, 282A) delivered to DOJ.

3/11/2025: Evidence transport from WFO to IMD; NY onsite at IMD.

3/12/2025: Provided to DOJ: b6 per OIP

- Redacted and Unredacted index of Epstein case files (50D, 72, 31E, 90A, 90C, 9A)
- Response to questions regarding CSAM, timeline production, video summary, digital evidence summary, OTD status for electronic data upload, and clarifying Miami cases.
- Epstein evidence photos from IMD intake; Summary of all Epstein cases delivered to [redacted]

3/16/2025: Provided to DOJ:

- 1B136 Highly Confidential Responsive Material one-pager delivered to [redacted] b6 per OIP
- Redacted documents from 50D: serials 1-240 delivered to [redacted]

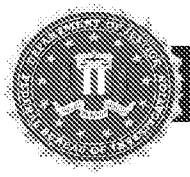

3/17/2025: DOJ, [redacted] accepted delivery of the following material: b6 per OIP

- 1 box with two folders - Redacted and sealed hard copies.
- 1 folder with cover memo and attachments.
- 1 envelope with flash drive with digital contents matching redacted and sealed hardcopies.

3/19/2025:

- DOJ/Joseph Attias accepted delivery of the full unredacted case files. Six cases provided on thumb drive: 9A-NY03144791, 31E-MM-108062, 50D-NY-3027571, 72-MM-1133207, 90A-NY-3151227, 90C-NY-3154599

- DOJ, [redacted] accepted delivery of two hard drives, containing Epstein 1A media output. b6 per OIP

Epstein Overview

- The following DOJ users were added to DCAP for review of 1B136: b6 -5 b7C -5
  - Joseph Attias, Sue Bai, [redacted]
- Residential Search Warrant affidavits from 50D case delivered to [redacted] b6 per OIP

3/20/2025: DOJ/[redacted] accepted delivery of a disk containing material marked as "salacious images." These were images of material obtained by a search warrant of Epstein's New York residence.

3/21/2025:

- Review of all ELSUR (1Ds) completed and provided to DOJ.
- List of all Agents/AUSAs that testified or names were made public regarding Epstein cases.

3/22/2025:

- IMD, with assistance from HQ-based ITID personnel, provided victim[2] name-only redactions for all six cases identified above. This victim-only guidance was consistent with initial processing guidance provided by DOJ. Totaling pages across all six cases delivered: 116,792 pages.

- **New Guidance and Project Direction:** DOJ ODAG email received with direction to apply new redaction types for only 50D (SDNY) and 31E (SDFL) cases, to expand scope beyond victim names to include witnesses, law enforcement, AUSAs (e.g., SDNY redaction list + SDFL list received), and Grand Jury (GJ) subfiles[3].

3/23/2025: Provided DOJ [redacted] and Sue Bai) all Epstein-related training materials ("Transparency Project Processing Guidance.pdf"), developed by FBI based on DOJ's scoping guidance. This training material was provided to all FBI personnel participating in the redaction project. b6 per OIP

3/24/2025: Sentinel final discrepancy results – WFO added serials to NY's case file which mention Epstein but were not germane to the investigation - were provided to DOJ.

3/25/2025:

- Epstein items delivered to ODAG:
  1. Inventory sheet with page counts and red lines showing classified material (x2)
  2. Epstein Transparency Project - Classified Material
  3. Epstein Redactions Final Page Count
  4. Epstein Transparency Project – Sample
  5. Thumb drives (x2) containing DOJ redaction processing on cases 50D-NY-3027571 and 31E-MM-108062. Total pages: 84,246 pages
  6. Flagged items – 31E
  7. Flagged items – 50D
  8. Adobe Redactions Guide – Sealing Final Redactions

[2] Total victim list = 1,115 names. The list included victims and victim families, per SDNY/SDFL.

[3] GJ subfiles were excluded per DOJ scoping guidance, which stated Grand Jury Material, per statute, are exempt from public disclosure. Therefore, IMD was instructed not to include GJ subfiles in the redaction project. Any GJ material present in other parts of the investigative case were redacted in accordance with DOJ's scoping guidance.

Hi [redacted] b6 -1 b7C -1

Thanks for getting access to our folks who are eager to assist.

If it hasn't already been done, please provide the OTD personnel with a very detailed description of what work / redactions you'd like completed. In order to provide you with the best service, it's critical that you (or someone from the case team), provide the most detailed description of what work you'd like accomplished.

Best, Ian

Attached: MLK-RFK SitRep 7_2025-04-14.pdf, 1B136 Review 50D-NY-3027571.xlsx

Gents,

Pursuant to our morning convo, please see the attached and below notes:

1. RFK/MLK:
    a. Scope: RFK ~10,000 pages; MLK ~250,000 pages
    b. DOJ POCs: Diego Pestana; Joseph Attias (ODAG); Sue Bai

2. RFK, all doc review by FBI has been completed, there is nothing left to review. MLK will continue at the rate NARA makes them available.

3. Additionally- the excel spread sheet is for Epstein and outlines the exploitation.

4. Epstein Video Review
    a. Evidence Item 1B136 contains responsive data obtained from 12K+ evidence items which were seized through sealed search warrants.
    b. NY is now reviewing media content from the 1A case file and will produce a similar overview. The total size is approximately 31K videos.

1B Evidence Review Summary:

- Most of the files are Internet image and video-based files, including commercial adult pornography.
- Some images are of nude, age difficult females in sexually suggestive poses, in various locations including a beach, and an apartment.
- Some images are of nude, age difficult females appeared to be located at various residences owned by Jeffrey Epstein. In these images, the women are solo, or with multiple women, and in approximately 20 images, Epstein is with the topless women.
- Some images contained identifiable CSAM possessed by Epstein, but none of the CSAM was produced by Epstein.
- None of the non-commercial videos and images with nude females have 3rd party men.
- None of the non-commercial videos and images depict adults engaging in criminal activity.
- Epstein was observed in multiple videos but not engaging in sex.

Please let me know if you have any questions. Thanks much

Kash

1B53: MCC video containing 147 cameras (8.08 TB of data) that were active before and after Epstein was found dead. Each video is 24 hours long. The cameras were stationed all over the prison at various locations and angles. They did not capture anything significant related to the suicide since the cameras in the Special Housing Unit, where Epstein was located, were not active at the time.

There are no outstanding reviews.

b6 per OIP

Good morning,

Update and final for #2 below.

Term: Refined Video
Description: increased the contrast, balanced the color and slightly improved the sharpness of the edges. These types of refinements are typical for video of any quality or resolution. These refinements allow the human eye and brain to interpret the video as clearer, richer, and more detailed. None of these steps can re-create detail that was never captured. This is standard for video refinement.

Will have #1 confirmed on Monday.

Shannon

Taylor,

.pdf final version attached. 2 important caveats:

1. We need 90 minutes lead time before we make public to turn on the links that are embedded in the document. So we need to know when you/we are going to send this out.

2. We ended up removing the link to documents/photos because we determined that producing any docs was not necessary. We also did not put this on any letterhead and just issue it as a statement.

Let us know if you have any questions or if you want to further discuss.

Thanks,
Todd

Hi, [redacted] b6 -1 b7C -1

Please see below from Nikki with a breakdown of what was in the FBI hard drives. Did FBI do a redaction of the materials in there?

Diego,

Here's the 1 of 2 hard drive—this is the largest of the two, 1 terabyte.

I took a screenshot of Vu's computer that is migrating the data to go into Everlaw—which started loading yesterday at about 1:00 PM (ET), it still has 1-day to go.

This should give you an example of the file path but I suggest that we do not disrupt this particular load since we are a day in.

Diego,

DOJ OCIO does not modify any metadata, [redacted]

- With the files that were posted on the Epstein Library, prior to the EFTA, (which I was also hands-on), my staff worked with [redacted] (OASG) to develop a script to remove metadata from files prior to posting.

Yes, DOJ OCIO maintains the file path—I have in some instances had to manually recreate the path for documents, like SDNY, that we could not drag and drop into OneDrive.

Furthermore, if I receive files from a Component via a CD or hard drive; or an electronic file sharing system, such as USAfx or JEFS, I maintain the path when it is uploaded to my OneDrive. I have also confirmed with my team that when files are uploaded into Everlaw, the file path is retained (see below Everlaw screenshot for example).

Thank you, Nikki!

Also, can you confirm whether JMD is preserving file path metadata for the productions from SDNY? And has JMD ingested all productions from SDNY or is that still in progress?

Diego,

I will discuss with my team—I do not have access to this data since it was so large and we had to import directly to Everlaw.

Any chance you can ping her and ask if she has them in a folder to share?

[redacted] called me and the Director asked about them. I think we can wait if she can't get anyone at CID but I'm hoping they are in a CID folder that someone can access and send?

Let me know either way and I'll manage expectations accordingly.

Thank you,
Shannon

Joseph,

Our Deputy's Chief of Staff provided the thumb drive directly to the DAG yesterday, as I understand he was in our building for a briefing.

Shannon-the threat brief with the AG/DAG was cancelled this morning and I will not be going across. If DOJ needs these today, we need to determine how best to get them over. If it can wait until tomorrow, I will take it to the threat brief at 0900.

Chad

Good morning Joseph,

Our Deputy asked we compile unsealed photos from both the trafficking and suicide cases to provide on a thumb drive. These photos are all contained within materials the FBI previously submitted. My colleague Chad Yarbrough will be bringing a thumb drive when he heads over for the AGs morning operational brief.

Additionally, our OTD team is ensuring all videos from the same camera - both raw and refined - have the exact same run time to the second. They are confirming this and will provide a new link if there is a change.

Good afternoon Joseph,

To close out the last of the pending questions, the estimated total size of materials provided to DOJ is approximately 377GB, to include documents, images, video and audio files.

b6 per OIP

Good morning,

Update and final for #2 below.

Term: Refined Video
Description: increased the contrast, balanced the color and slightly improved the sharpness of the edges. These types of refinements are typical for video of any quality or resolution. These refinements allow the human eye and brain to interpret the video as clearer, richer, and more detailed. None of these steps can re-create detail that was never captured. This is standard for video refinement.

Will have #1 confirmed on Monday.

Shannon

Hi Joseph,

I wanted to provide an update on the three questions we discussed yesterday.

1. Total Data Size (estimated) of the totality of what was delivered to DOJ from February 2025 – May 2025.
    1. Paper Documents
    2. Photo Scans / Images
    3. Audio / Video

Status: will have by Monday.

2. Terminology to use to differentiate between MCC videos and 1-2 lines description of work done

1.

Status: The tech team is deciding between two terms to use ('enhanced' is still in discussion)

Description of work done: increased the contrast, balanced the color and slightly improved the sharpness of edges. These types of enhancements are typical for video of any quality of any resolution. These types of enhancements allow the human eye and brain interpret it as clearer, richer, and more detailed. None of these steps can re-create detail that was never captured. This is standard for video enhancement.

3. Date FBI closed the suicide investigation

90A-NY-3151227 encompassed a deferred prosecution agreement for two guards executed on 05/21/2021, and was closed on 12/5/2022.

Subject: Dershowitz - reference

Good evening Chad and Chris,

BLUF: Alan Dershowitz (Dershowitz) is referenced in the Jeffrey Epstein child sex trafficking investigation within two FD-302s. Dershowitz was not considered a subject in this investigation and no evidence was uncovered during the investigation to suggest Dershowitz was involved in the abuse of minors. The following is a description of the content of these FD-302s and the manner with which Dershowitz was referenced.

Proffer #1 with [redacted] in July 2019; [redacted] was an employee of Epstein and traveled with Epstein to Epstein's Island, Boston, New Mexico, and Paris. In Boston, they met with Dershowitz. Dershowitz received a massage from [redacted] understood these massages to be more professional massages and different than the massages the girls provided.

Proffer #2 with [redacted] in September 2019; [redacted] saw on Twitter that Dershowitz stated he was with his wife and kids when he was at Epstein's home [redacted] met with Dershowitz and he was alone in the house with no wife and no kids when he received a message [indicating he lied on Twitter].

Sir -- please let me know if you want a quick call on the work being done by OTD for the Maxwell audio files. OTD is at full operations and expects to be done later tomorrow with the files then sent to NY FO for review. I know OD Yarborough has mentioned this to you earlier today, and AD Perez is in comms with ODAG's Office (Diego Pestana) on the task and projected turn-around time. Thanks.
